

BINGO
CONSTRUCTION RELATED CAREERS
 CTAE Resource Network, Instructional Resources Office
 September, 2009

Directions for the Teacher

1. Print the bingo cards. Twenty eight different cards are included. Print additional cards at random if needed. Cut each sheet to separate the cards. Cards may be laminated for durability.
2. Give each student a bingo card and chips, markers, or scrap paper. If paper is to be used, ask students to tear or cut 25 pieces of paper about one-half inch square. If the cards have been laminated, students can mark their cards with erasable markers. If the cards are to be used only once, students may X out their responses in pencil or pen.
3. Explain to the students that you will read the definitions to the class and that they should mark the correct answer on their card. Note that all cards do not have all the answers.
4. At random, read only the definitions from the list. Mark the checkbox beside the definitions as they are used. Students should mark or place a chip on the cell with the correct response.
5. When a student has marked 5 spaces in a row (diagonally, vertically, or horizontally) the student should call "Bingo." Ask the winning student to call out their answers. Check their answers to make sure those definitions have been used.

Variations:

- T-Bingo: The card must be marked in the shape of a "T" to call Bingo.

•Corners Bingo: The four outer corners of the card must be marked to get Bingo.

1

ELECTRICIAN	ELECTRONIC SYSTEMS INSTALLER	CONSTRUCTION FOREMAN	GENERAL CONTRACTOR	EQUIPMENT MANAGER
ELECTRICIAN	PAINTER	HAZARDOUS MATERIALS REMOVER	CONSTRUCTION ENGINEER	CONSTRUCTION CRAFT LABORER
HEAVY EQUIPMENT OPERATOR	FLOORING INSTALLER	FREE SPACE	INSULATION WORKER	CONSTRUCTION MANAGER
ELECTRICAL TRANSMISSION INSTALLER	CARPENTER	ELEVATOR INSTALLER	CARPET INSTALLER	GLAZIER
FIELD SUPERVISOR	HVAC MECHANIC	DRYWALL INSTALLER	EXPLOSIVES WORKER	CONCRETE MASON

•U-Bingo: The card must be marked in the shape of a "U" to call Bingo.

Correct Response	Definition	Used 
ARCHITECT	Designs buildings and a variety of other structures to meet the needs of clients.	
LINE WORKER	Installs and repairs networks of cables and wires that supply buildings with electrical power and communications services.	
DRAFTER	Applies computer programs to make detailed technical drawings that construction crews read to erect buildings.	
RENDERER	Generates images from models by means of computer programs.	
RETAIL MATERIALS SALESPERSON	Determines customer needs and assists them in selecting the product or additional merchandise.	
ESTIMATOR	Estimates the projected cost of any construction project.	
CODE OFFICIAL	Issues permits for and inspects buildings, plumbing, floodplain management, land use, signs, and demolition.	
SAFETY DIRECTOR	Oversees the construction project to prevent harm or damage to workers, the general public, property, and the environment.	
WASTEWATER MAINTENANCE TECHNICIAN	Is responsible for working the pumps, valves, and other equipment that move waste water through various stages of treatment.	
INTERIOR DESIGNER	Designs interior spaces in homes, offices, hospitals, stores, etc. to make them attractive and useful.	
PRESERVATIONIST	Maintains, restores, and protects historical sites and buildings.	
FACILITIES ENGINEER	Conducts research and development activities concerned with design, construction, and production of facilities and systems.	

CONSTRUCTION INSPECTOR	Assesses construction or renovation of structures like buildings, roads, water systems, etc, to assure compliance with building codes and regulations, and adhere to stipulations of the contract.	
SURVEYOR	Measures directions and angles on the Earth's surface and researches legal records to determine property and boundary lines for residential and commercial buildings.	
DEMOLITION ENGINEER	Tears down structures through the use of explosives and wrecking with the use of machinery.	
ENVIRONMENTAL DESIGNER	Plans and designs land areas for such projects as parks and other recreational facilities, airports, highways, schools, land subdivisions, and commercial, industrial, and residential sites.	
TRAINING DIRECTOR	Conducts and supervises training and development programs for employees.	
CONSTRUCTION TEACHER	Teaches construction industry techniques and fundamentals at the high school or post-secondary level.	
MILLWRIGHT	Installs, maintains and replaces a variety of heavy machinery used in industries such as power generation, construction, manufacturing, and mining.	
SERVICE CONTRACTOR	A person or business that contracts to service or maintain a specific item or system on an on-going basis such as heating and air systems.	
LANDSCAPE ARCHITECT	Designs plans for sites that determine how roads, buildings, topography, and vegetation all fit together for the most functional and attractive site.	
RESTORATION TECHNICIAN	Works with architects and preservationists to repair or replace components of old structures to return buildings to the original state or appearance.	

ENVIRONMENTAL ENGINEER	Works to limit water, noise, and air pollution. Applies science and engineering principles to protect and improve air, water, and land resources.	
SPECIFICATIONS WRITER	Describes to builders the different types of materials to be used in construction projects, the standards for the materials used, and how the materials are to be used.	
CIVIL ENGINEER	Designs and supervises the construction of buildings, dams, roads, bridges, and other structures.	
GENERAL MAINTENANCE CONTRACTOR	Performs a variety of work in the general maintenance and repair of buildings, facilities, and equipment.	
MANUFACTURER'S REPRESENTATIVE	Works to make potential wholesale and retail buyers interested in the manufacturer's products or services.	
MAINTENANCE SCHEDULER	Schedules, supervises, and coordinates the maintenance activities of mechanics, installers, and repairers.	
SALES AND MARKETING MANAGER	Sales and marketing managers direct and supervise a company's marketing strategies and sales programs.
